ode to gordon

An ode to Gordon

smart and handsome

yet lives a life of silence

trained to handle anything thrown

yet has something missing

black mesa was his time to rise

be the man to save them

yet all he managed to save was himself

he lived in years of stillness

not moving till needed

awoke by the call for help

found the world in peril

lead by a stranger

now we'll see the outcome

in about 5 years!

End
